

WOOD FINISHING METHODS

Instructor: Charlie Lagergren

Prerequisite: None

Schedule: 4 hours – See training [CALENDAR](#) for scheduled dates

Student Supplied Material: None

Enrollment: Minimum 4 persons / Maximum 8 persons

Class Title: WOOD FINISHING METHODS, both Prep & Apply.

Description: In this class the student will choose, prepare, & apply 7 different popular wood finishes to both course and fine grain wood samples to obtain the desired results wanted on a project. During the class you will

- 1) Become familiar with seven different wood finishes, apply the 5 most used finishing products to various woods
- 2) Learn each product's advantages and disadvantages
- 3) Determine and evaluate the most appropriate wood prep and sealing for each type of wood and for each finish and use
- 4) Discuss frequently requested types of finish related to type or usage of a finished project

Fee: \$25 for materials.
